What are Showcase Schools?

# Innovators transforming education worldwide

Microsoft Showcase Schools are a global community of K-12 schools using digital transformation to create immersive, inclusive experiences that inspire lifelong learning and empower students to achieve more.

The diverse members of this program have leveraged [Microsoft's Education Transformation Framework](#) to drive a culture of learning, innovation, and continuous improvement. Their hard work is reflected in improved learning outcomes for their students and an increased focus on future-ready skills. It has also provided them with the resiliency and agility needed to effectively transition to remote and hybrid learning during disruptions such as the COVID-19 crisis.

Each school who enters the Showcase School program starts at some point on the [Showcase School Rubric](#) and continues their education transformation journey at their own pace, with the support of their peers, Microsoft, and its partners all along the way.

A woman with dark hair, wearing a pink patterned shirt and a colorful striped scarf, stands in a classroom. In the background, several children are visible, some sitting at desks. The walls are decorated with colorful drawings and text. The overall atmosphere is bright and educational.

# Helping education leaders achieve sustainable transformation

Showcase Schools benefit from Microsoft's commitment to holistic, sustainable transformation, guiding school leaders along an established framework that helps them navigate complex challenges, envision what's possible, and develop a strategy to achieve it. This [Education Transformation Framework](#)—grounded in research and based on decades of work with policy makers, school leaders, and educators around the world—helps schools improve in four main areas:

As Showcase Schools progress along their education transformation journey, they are supported by Microsoft, their partners, and each other through capacity building, guidance, peer learning, amplification opportunities, and early access to research and solutions. School leaders also regularly enjoy connecting and learning from each other through the vibrant Showcase School community on Microsoft Teams.

Microsoft Education

# Unlocking limitless learning with technology

Microsoft is committed to being a long-term partner for education transformation. In addition to the Showcase Schools program and the Educational Transformation Framework, Microsoft also provides a wide range of devices, software, applications, and professional development to help educators improve learning outcomes for all students. Each Showcase School implements these tools in their own unique ways, sharing best practices and helping each other to achieve more.

Bogotá, Colombia

# Colegio Andino-Deutsche Schule, Bogotá

The Colegio Andino-Deutsche Schule Bogotá was founded in 1922 and is a certified bi-cultural school supported by the German government, which promotes German and Colombian culture and language. With more than 1,850 students, 180 teachers, and 420 administrators, Microsoft 365 has dramatically improved communication and productivity between students, teachers, and administrative staff.

As a Microsoft Showcase School that already had a 1:1 device ratio with Microsoft 365, the school was well-positioned to enable remote learning during the COVID-19 pandemic, simply by adopting Teams and extending its use of OneNote.

**Number of staff**  
460

**Number of students**  
1,850

**School level**  
K-12

**Area of excellence**  
Change management

## How devices are used:

1:1 environment, shared environment, computer lab
